Fleet management shouldn’t be this hard

Managing a fleet is complex. It involves juggling vehicle admin, driver compliance, service dates, fuel spend, and fines — often across disconnected systems. One missed MOT or licence check can lead to downtime, unexpected costs, or legal risk.

That’s why we’ve built one platform that brings everything together.

With Fleet Management, you get a smart, central hub to track vehicles, manage drivers, automate admin, and proactively solve problems — keeping you informed, in control, and ahead of the curve.

Less admin. Fewer risks. More time to focus on what matters.

At a glance

- One smart digital hub
- Real-time vehicle insights
- Predictive maintenance
- Driver & vehicle oversight
- Automated compliance
- Smart cost control
- Environmental reporting

Everything you need. All in one place

Live vehicle insights
Get real-time mileage, location, and vehicle health data — sent directly from your vehicles. No extra hardware needed.

Predictive maintenance
Act fast on service alerts and reduce downtime with automatic maintenance scheduling powered by real-time data from the vehicle manufacturer.

Driver management
Assign drivers, monitor behaviour, and manage penalties and fines — all from one central place.

Effortless compliance
Stay ahead of MOTs, licence renewals, and safety checks with automated reminders and smart scheduling.

Safety-first inspections
Log issues instantly and schedule vehicle inspections to keep your fleet safe and road-ready.

Cost control & optimisation
Track fuel, mileage, and maintenance spend to uncover savings and cut hidden costs.

Environmental reporting
Track CO_2 and get clear emissions reports to support sustainability goals.
